

GX Assist®

GI Cleansing Formula

Made with enteric coated softgels

PRODUCT DESCRIPTION

GX Assist is a combination of CPTG essential oils and caprylic acid. GX Assist is formulated to be used for 10 days before using PB Assist®+ Probiotic Defense Formula.

PRIMARY BENEFITS

- A proprietary blend of CPTG essential oils and caprylic acid

DIRECTIONS FOR USE

Take 1 to 3 softgels per day with meals for 10 days

CAUTIONS

Pregnant or nursing women and people with known medical conditions should consult a physician before using.

FAQS

Q: Is GX Assist® safe to use every month?

A: Yes, GX Assist can be used for 10 days each month (1–3 capsules each day). It can also be used less often, such as every three months.

Q: Can I use this more than once a month? How many days do I need to discontinue use before I can start using again?

A: It is recommended that GX assist be used no more than 10 days of the month, followed by 20 days of PB Assist®+.

Q: Is it the Oregano that we should be careful about using too much too often?

A: While Oregano is generally considered to be a more potent oil, the amount of essential oil, including Oregano, in GX Assist is far below a dose that could cause harm. The 10–day program is designed to provide a positive benefit to the digestive tract. It is not necessary to continue the program beyond 10 days.

Q: Is GX Assist GMO and gluten-free?

A: GX Assist does not contain Genetically Modified material and is gluten-free.

Q: Should I discontinue use of other supplements while I am using GX Assist?

A: GX Assist is safe and effective when used in combination with dōTERRA Lifelong Vitality Pack® supplements and other dōTERRA supplements. GX Assist will not interfere with your body’s ability to absorb or utilize vitamins, minerals, cellular support ingredients, essential fatty acids, or other active ingredients.

Q: Are there plans to put this in a vegetarian softgel?

A: GX Assist may be transitioned to a vegetarian softgel in the future.

Q: Is GX Assist safe for children to take?

A: GX Assist is not recommended for children, even at a lower dose.
